

Appendix 3A.5

Notification of return of capital by way of in specie distribution of +securities in another entity

Information or documents not available now must be given to ASX as soon as available. Information and documents given to ASX become ASX's property and may be made public.

*Denotes minimum information required for first lodgement of this form, with exceptions provided in specific notes for certain questions. The balance of the information, where applicable, must be provided as soon as reasonably practicable by the entity.

Note: This form assumes the entity is an Australian company undertaking a return of capital that is regulated by section 256C of the Corporations Act. If the entity is not an Australian company, it should use the Word version of this form, rather than the online version, and adjust it as necessary.

If the entity is paying a cash dividend at the same time as the return of capital, it must also lodge an Appendix 3A.1 – notification of dividend / distribution.

<p>4.3a</p>	<p>*The capital return will be on the basis that <i>Answer this question if your response to Q4.3 is "Yes".</i></p> <p><i>For example, where you distribute one distribution security for every five securities held, the answer above is 1.00 (distribution) security will be distributed for each 5.00 (held) securities. To distribute two distribution securities for every three securities held the answer is 2.00 (distribution) securities will be distributed for every 3.00 (held) securities. An example of how the ratio would affect a sample security holding can be given in Part 5 – "Further information".</i></p>	<p>_____ +securities in _____ (name of entity whose +securities are being distributed) will be distributed for every _____ +securities held in _____ (name of entity making the announcement)</p>
<p>4.3b</p>	<p>How and when will the ratio for the distribution of +securities in the return of capital be determined? <i>Answer this question if your response to Q4.3 is "No". Note that once the ratio is determined, this must be provided via an update announcement.</i></p>	<p>The ratio for the distribution of securities in the return of capital will be determined at Record Date by dividing the number of Vertex shares to be distributed (15,000,000) by the number of Peak Shares held by eligible Peak shareholders at the Record Date.</p> <p>Due to the outstanding Options and performance rights on issue in Peak and also because of the potential future issue of Shares by the Company before the Record Date, it is not clear at the date of this notice how many Peak Shares will be on issue at the Record Date nor therefore what the exact ratio for the In-specie Distribution will be. However, based on the Peak Shares on issue as at the date of this notice (890,302,620), and assuming this same number of Shares was on issue at the Record Date, the approximate ratio of the distribution would be 1 Vertex Share for every 59 Peak Shares held.</p>
